## How This Works

- Each section starts at **6:00am** on consecutive days for a consistent routine.
- **Riding time per section:** 16 hours 41 minutes (334km at 20km/h).
- **Rest stops during each section:** 2 hours 17 minutes, distributed as needed.
- **Section end time:** 00:58am (just before 1:00am) the following day.
- **End-of-section break:** 5 hours 2 minutes, from 00:58am to the next 6:00am start.
- **Total elapsed time:** 24 hours after Section 1, 48 hours after Section 2, and 66 hours 58 minutes after Section 3, leaving a comfortable buffer before the 72-hour limit.

This schedule gives us a **5 hour and 2 minute buffer** within the official time limit. This buffer is essential for managing unexpected situations such as mechanical issues, adverse weather, navigation errors, or simply taking extra rest if needed.
